

April 14, 1977

LB 425, 110

original form did not sufficiently involve the department of welfare, so that the department could qualify for the legal assistance that is provided under the federal program. Now I know that there are those that say that this isn't necessary, but it isn't in my case out in Butler County....

SENATOR MILLS: Senator Schmit, the point that I am trying to make is that I would like to be able to read the amendment so see what it is doing. I want to tell you that I really get concerned about this. I for one pay child support and I certainly am not concerned that any castigation is made against people that do pay it. But, I get tired of repeatedly, repeatedly, repeatedly, people saying that those people are not paying child support. I want to know where it is being directed Senator Schmit. You adhere to the rules of the legislature, you have things printed in the Journal, you have amendments put on the desk, I would like to see it.

SENATOR SCHMIT: Senator Mills if the amendment was not placed on the desk I apologize, I had it distributed a long while ago. I did not ask to have it printed in the Journal, and I apologize for that. But it was distributed, it was distributed a long while ago when it was first printed and I know that the amendment has been delayed because Senator Newell and I were both waiting for information from Mr. Knowell from up in Douglas County. If you wish to have the amendment distributed or printed in the Journal and hold the bill over a day I have no objections.

SENATOR MILLS: I certainly appreciate that. I will speak to you personally about it.

SENATOR SCHMIT: That is fine with me Senator Mills. I would be glad to ask....Mr. President, if it is in order I would like to ask that the bill be laid over for a day and would you please print these amendments in the Journal.

PRESIDENT: Is there an objection? Seeing none it is so ordered. LB 110.

CLERK: Read LB110. The E & R amendments have been adopted. It has been laid over a couple of times. There is presently an amendment pending offered by Senator Schmit.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the Legislature you have an amendment to LB110 on the desk I believe.

CLERK: Yes.

SENATOR SCHMIT: Mr. President, this amendment would have to be printed in the Journal and I would ask to have it laid over, I would also like to announce that I am waiting for some more information from the Environmental Protection Agency relative to an additional amendment and at that time I would ask that it also be printed in the Journal, if we decide to add another amendment. Would you please print this amendment in the Journal and lay the bill over please.

PRESIDENT: Senator Newell.
